## PROFILE

Full Stack developer and BSc. CSIT graduate with hands-on experience across two internships, client projects, and a strong personal project portfolio. Comfortable building end-to-end features with React.js, TypeScript, Node.js, Express.js, PostgreSQL, and MongoDB, with growing expertise in Docker and ORMs (Sequelize, Prisma). Equally confident crafting responsive, accessible frontend interfaces and designing backend APIs and database schemas.

## EXPERIENCE

**WorldLink Communication** — Full Stack Development Intern June 2026 – Sept 2026

- Contributing to full-stack development of the company website, implementing the frontend design and building backend services with Node.js, Express.js, PostgreSQL, and Sequelize ORM.
- Containerizing frontend application using Docker, gaining practical experience with containerized development and deployment workflows.
- Deepening backend development skills through hands-on API design and database work, building on prior frontend-focused experience.

**Collab Pvt. Ltd.** — Frontend Development Intern (Remote) Sept 2025 – Dec 2025

- Developed responsive UI components using HTML, Tailwind CSS, and JavaScript, reducing design-to-code handoff time by translating Figma mockups directly into production-ready frontend modules.
- Improved frontend application load performance by migrating the build pipeline to Vite, resulting in noticeably faster cold-start and hot-reload times during development.
- Collaborated with the design team to ensure cross-browser compatibility and consistent UI behaviour across screen sizes, contributing to a polished user experience on all deliverables.

## PROJECTS

**Spotify Clone — Music Player** | React, TypeScript

- Built a Spotify-inspired music streaming app with playlists, search, artist pages, and a custom audio player using the iTunes API, achieving seamless playback through dynamic routing and global state management with React Context.
- Improved API reliability by implementing a Vercel proxy to handle CORS, deploying the app on Vercel and a responsive UI that works across mobile and desktop.

Live Demo: Spotify-Clone

**E-Commerce UI** | React, JavaScript

- Developed a responsive eCommerce interface with product listings, category filtering, add-to-cart functionality, and dynamic UI updates using React hooks and clean component structure.
- Deployed on Render with a fully functional demo, structured components for scalability and clean state management using React hooks.

Live Demo: Ecommerce-Platform

**WePlumbNHeat — Client Website** | HTML, Tailwind CSS, JavaScript, SEO

- Deployed a production-grade business website for a UK plumbing and heating service, implementing semantic HTML and on-page SEO best practices that make the site indexable and accessible.
- Added interactive UI elements and ensured mobile-first responsiveness across major browsers.

Live: https://weplumbnheat.co.uk

**Weather App** | HTML, CSS, JavaScript, REST API

- Integrated a third-party weather API to fetch and display real-time weather data, including temperature, humidity, wind speed, and conditions, in a responsive interface built with HTML, CSS, and JavaScript.

Live Demo: Weather-app

**E-Health — Hospital Appointment System** | React, Node.js, Express.js, MongoDB

- Collaborated in a 2-person team to develop a full-stack hospital appointment system, building login and signup functionality with JWT-based authentication and protected routes.
- Developed RESTful APIs using Node.js and Express.js, and designed MongoDB schemas for user accounts, hospital information, and appointment management.

## EDUCATION

**BSc. CSIT — Computer Science** 2022 – 2026

Tribhuvan University · Trinity International College, Dillibazar, Kathmandu

**High School — Science (+2)** 2019 – 2022

Trinity International College, Dillibazar, Kathmandu

## SKILLS

**Frontend:** HTML, Tailwind CSS, JavaScript (ES6+), TypeScript, React.js, Vite

**Backend & Database:** Node.js, Express.js, MongoDB, REST API integration, Prisma, Sequelize, Docker

**Version Control:** Git, GitHub

**Design & Tools:** Figma, Canva, AWS Basic

**Soft Skills:** Client communication, remote collaboration, attention to detail, time management

## CERTIFICATIONS

- **AWS Cloud Quest: Cloud Practitioner** — Amazon Web Services, 2026
- **MERN Stack Web Development Course** — N9 Solution, Dec 2024 – Mar 2025
