PROFILE

Frontend developer and BSc. CSIT student with hands-on experience in remote internship, freelance client work, and personal projects. Skilled in building responsive web interfaces using HTML, Tailwind CSS, JavaScript, React.js, TypeScript, and Vite.

EXPERIENCE

- Collab Pvt. Ltd. - Frontend Development Intern**

May 2025 - Oct 2025

Developed responsive web interfaces using HTML, Tailwind CSS, and JavaScript. Translated UI designs into functional frontend components. Built and optimized frontend applications using Vite for improved performance.
- Freelance Web Developer & UI/UX Design**

Oct 2025 - Sep 2025

Built responsive websites for clients. Designed UI/UX layouts using Figma and Canva. Tested features, fixed bugs, and improved performance.

PROJECTS

- E-commerce | JavaScript, React**

Live Demo : <https://ecommerce-site-frontend-kiaw.onrender.com/>

Developed a responsive eCommerce UI with product listings, category filtering, cart layout, and dynamic updates.
- WePlumbNHeat Website | Tailwind CSS, JavaScript, SEO**

Live Demo: <https://weplumbnheat.co.uk>

Built and deployed a responsive business website with interactive elements and an SEO-friendly structure.
- Weather App | HTML, CSS, JavaScript**

Live Demo: <https://shi26tal.github.io/Weather-app/>

Built a weather app using a free API to show temperature, humidity, wind speed, and conditions.
- E-Health | MERN Stack**

GitHub Link: <https://github.com/theamishthapa/E-Health>

Collaborated on a hospital appointment booking platform with authentication, filtering, and booking features.
